

Dear Senators Winfield and Kasser, Distinguished Members of the Judiciary Committee,

I oppose H.B. 6335 and urge you to also oppose it. This bill ignores due process, putting the burden of proof of innocence on the accused. The burden of proof will be on proving the petitioner's feelings that someone might be at risk or might commit a crime. After you lost your constitutional rights for 6 months. I can see all kinds of opportunity for abuse of this bill.

Respectfully,

Luciano E. DelMonte
